

Buck Nomination

INFORMATION GUIDE

- Your buck's progeny will be performance recorded and benchmarked against other bucks' progeny, including different breeds. Records will include growth, reproduction, carcass, faecal egg count, horn/poll status, coat colour, temperament, and conformation.
- · Access to your buck's genetic benchmark through KIDPLAN.
- Gain links into the KIDPLAN database. If this is your aim, stronger links can be formed if you supply an older buck with progeny in your stud.
- Bridge gaps between different genetic databases, allowing across herd comparison.
- Network with other breeders and the research team.

Selection criteria

Your nominated bucks don't have to meet all criteria, but NSW DPI will prioritise the purchase of bucks that have the following:

- · Industry influence
- At least two generations of full-pedigree
- Measured and/or registered progeny in your/other stud(s)
- A diverse pedigree
- · Progeny in more than one herd (e.g. Al sire)
- · Records in KIDPLAN
- · Their sire in KIDPLAN
- A breed society registration and ID
- Delivery arranged to Condobolin

Nominate your buck

Nominate your buck(s) now by filling in the online form. This form can be located via the QR code to the right or by visiting <u>THE LINK HERE</u>.

Need help?

If you need help selecting your buck(s) to nominate, please contact Trudie Atkinson: trudie.atkinson@dpi.nsw.gov.au

Delivery deadlines

Joining 2	03/09/2024
Joining 3	10/05/2025
Joining 4	13/01/2026
Joining 5	18/09/2026

Terms

NSW DPI will purchase the buck to have full ownership of him and his offspring. In special cases, NSW DPI will consider buyback or semen return agreements. The price paid will be negotiated on a case-by-case basis. Producers are encouraged to consider the broader benefit to their business and industry.

Bucks must be supplied with:

- An approved NLIS ear tag
- National Vendor Declaration
- National Goat Health Declaration
